ENBF Objectives

The Association promotes specific objectives addressing traffic noise abatement in the spirit befitting a non-profit making organisation. These objectives are:

- To support Research & Development on systems and products
- To provide effective support to legislation / administration
- To promote qualification standards
- To advice professionals and inform public

ENBF Activities

In order to meet these goals, the association proposes to carry out the following activities:

- To exchange knowledge and expertise on products and solutions among members of the Federation;
- To provide informative support and cooperation to the bodies in charge of writing European legislation and European technical standards;
- To set up the basis for cooperation between industry, public administration and other relevant stakeholders;
- To develop communication tools in order to spread knowledge and expertise to a large audience.
